Second Edition, July 2016

Contents

Preface	9
1 Approaching Forecasting	15
1.1 Forecasting: Where?	15
1.2 Basic Notation	15
1.3 The Forecasting Process	16
1.4 Goal Definition	18
1.5 Problems	23
2 Time Series Data	25
2.1 Data Collection	25
2.2 Time Series Components	28
2.3 Visualizing Time Series	30
2.4 Interactive Visualization	35
2.5 Data Pre-Processing	39
2.6 Problems	42
3 Performance Evaluation	45
3.1 Data Partitioning	45
3.2 Naive Forecasts	50
3.3 Measuring Predictive Accuracy	51
3.4 Evaluating Forecast Uncertainty	55
3.5 Advanced Data Partitioning: Roll-Forward Validation	62
3.6 Example: Comparing Two Models	65
3.7 Problems	67
4 Forecasting Methods: Overview	69
4.1 Model-Based vs. Data-Driven Methods	69

4.2	Extrapolation Methods, Econometric Models, and External Information	70
4.3	Manual vs. Automated Forecasting	72
4.4	Combining Methods and Ensembles	73
4.5	Problems	77
5	Smoothing Methods	79
5.1	Introduction	79
5.2	Moving Average	80
5.3	Differencing	85
5.4	Simple Exponential Smoothing	87
5.5	Advanced Exponential Smoothing	90
5.6	Summary of Exponential Smoothing in R Using ets	98
5.7	Extensions of Exponential Smoothing	101
5.8	Problems	107
6	Regression Models: Trend & Seasonality	117
6.1	Model with Trend	117
6.2	Model with Seasonality	125
6.3	Model with Trend and Seasonality	129
6.4	Creating Forecasts from the Chosen Model	132
6.5	Problems	133
7	Regression Models: Autocorrelation & External Info	143
7.1	Autocorrelation	143
7.2	Improving Forecasts by Capturing Autocorrelation: AR and ARIMA Models	147
7.3	Evaluating Predictability	153
7.4	Including External Information	154
7.5	Problems	170
8	Forecasting Binary Outcomes	179
8.1	Forecasting Binary Outcomes	179
8.2	Naive Forecasts and Performance Evaluation	180
8.3	Logistic Regression	181
8.4	Example: Rainfall in Melbourne, Australia	183
8.5	Problems	187
9	Neural Networks	189

9.1	Neural Networks for Forecasting Time Series	189
9.2	The Neural Network Model	190
9.3	Pre-Processing	194
9.4	User Input	195
9.5	Forecasting with Neural Nets in R	196
9.6	Example: Forecasting Amtrak Ridership	198
9.7	Problems	201
10	Communication and Maintenance	203
10.1	Presenting Forecasts	203
10.2	Monitoring Forecasts	205
10.3	Written Reports	206
10.4	Keeping Records of Forecasts	207
10.5	Addressing Managerial "Forecast Adjustment"	208
11	Cases	211
11.1	Forecasting Public Transportation Demand	211
11.2	Forecasting Tourism (2010 Competition, Part I)	215
11.3	Forecasting Stock Price Movements (2010 INFORMS Competition)	219
	Data Resources, Competitions, and Coding Resources	225
	Bibliography	227
	Index	231
